AOEC Activities, Announcements, and Funding Opportunities

Former President and long-time AOEC member Tee Guidotti has just published a new book of interest to AOEC members: *Health and Sustainability* (Oxford University Press, 2015). Tee is currently a Fulbright Visiting Chair at the University of Ottawa, in the Institute for Science, Society, and Policy, a six-month award that ends this July.

Many members are familiar with *New Solutions: A Journal of Environmental and Occupational Health Policy*. The journal has recently changed publishers and is now published by Sage Publications. In order to spark a bit of interest, Sage is offering free open access online until June 5. If you haven't read a copy recently, now is the time to check it out at <http://new.sagepub.com/>. If you want to subscribe, go to the list on the right under "More About This Journal". There is a 20% discount offer for new subscribers using the code NEW20. Craig Slatin of UMASS-Lowell is the editor. He requested that AOEC members consider submitting manuscripts to *New Solutions*.

Epidemic Intelligence Service (EIS)

The deadline for submitting applications for the 2016 EIS Class is mid-August (August date not yet posted). All applicants to the EIS program must meet degree and licensing requirements. An active, unrestricted U.S. license to practice a clinical specialty is required, if applicable. Non-U.S. citizens eligible for a J-1 visa may apply, but only a limited number are selected. Information regarding the new EIS online application and program details is available at <http://www.cdc.gov/eis/application.html>; by telephone (404-498-6110); or via e-mail (eis@cdc.gov).

For individuals interested in EIS training at CDC's National Institute for Occupational Safety and Health (NIOSH), please contact Sally Brown, EIS Class 1997 at NIOSH at 303-236-5950 or sbrown@cdc.gov.

NORA Seminar Available: The archive link to the NORA Seminar, "Violence Perpetrated by Patients and Visitors Against Hospital Workers" by Dr. Ashley Schoenfisch, held April 8, 2015 is available at <http://courses.sph.unc.edu/nc-osherc/>. Click on the archive link and then click on

the link to the seminar. Slides and evaluation form are available by contacting Susan Randolph at susan.randolph@unc.edu or 919-966-0979.

View from Vermont Avenue by Katherine Kirkland, Executive Director

April 28 was Workers Memorial Day, and it highlighted that while Congress may not be doing much for worker health at the moment, others are. There was a quote at the AFL-CIO remembrance that "statistics are people with the tears wiped away." and a number of the activities for Workers Memorial Day were focused on putting faces and realities to those statistics.

One of the more poignant moments was the talk given by the mother of a worker who died falling from a cell tower. The company was found negligent but the fine was only \$4,750. Her compelling line was that there was something dreadfully wrong when a human life is only worth \$4,750 (the current maximum level for a serious violation, which includes death, is \$7,000).

As usual, one of the best ways of putting the people back into the statistics came from Earl Dotter. His latest photography exhibit was done for the Asbestos Disease Awareness Organization. It is called *Badges: A Memorial Tribute to Asbestos Workers*. It is currently on display at the AFL-CIO headquarters through May 15. It will move to the Mt. Sinai Medical Center in Manhattan from October 16th through 28th. Then the exhibit moves to the TH Chan Harvard School of Public Health from November 2nd through December 2nd and the NEOCOM meeting on December 3-4th. There will undoubtedly be other showings so please check his website www.earldotter.com.

That is not to say the statistics are not important or influential. The AFL-CIO published the 2015 3ddition of *Death on the Job: The Toll of Neglect* which can be found at <http://www.aflcio.org/Issues/Job-Safety/Death-on-the-Job-Report>. NIOSH published other statistics in Morbidity and Mortality Weekly Report: Workers' Memorial Day 2015 found at http://www.cdc.gov/mmwr/preview/mmwrhtml/mm6415a2.htm?s_cid=mm6415a2_w.

The Department of Labor had one final and upbeat way of promoting the day. Asst. Secretary David Michaels capped off a day of activities by throwing out the first pitch at the April 28 Cleveland Indians game.

New from Federal and State Agencies

NIOSH

The James P. Keogh Award for Outstanding Service in Occupational Safety and Health recognizes a current or former employee of NIOSH whose career "exhibits respect and compassion for individual workers, with tireless leadership, courage, and a fierce determination to put knowledge into practice to enhance their well-being." For 2015, NIOSH honored *Dr. Kathleen Kreiss*, a dedicated leader in the field of occupational lung disease, who, over the course of three decades, has made extraordinary contributions to occupational medicine through her research, education, and public health work.

NIOSH, OSHA & CPWR host 2015 National Fall Safety Construction Stand-down

The [National Institute for Occupational Safety and Health \(NIOSH\)](#), in a combined effort with the Occupational Safety and Health Administration (OSHA) and CPWR - [the Center for Construction Research and Training \(CPWR\)](#), among other partners, announce the second-annual construction Fall Safety Stand-Down during the weeks of May 4-15, 2015. This event follows the success of last year's Stand-Down and asks employers and workers across the nation to pause in their work and dedicate time to activities that promote the prevention of fatalities from falls. For more information about the 2015 National Fall Safety Stand-Down, please visit: <https://www.osha.gov/StopFallsStandDown/>. For more information on the campaign to prevent falls in construction, visit: www.stopconstructionfalls.com

OSHA

To help ensure that workers have a voice in their workplaces and the protection they deserve, OSHA unveiled a new version of its [“Job Safety and Health – It’s The Law!” poster](#). The poster informs workers of their rights, and employers of their responsibilities.

[Positions Available](#)

Duke Occupational and Environmental Medicine Research Faculty Position

The Division of Occupational and Environmental Medicine, Department of Community and Family Medicine (CFM) is seeking applicants for Associate /Full Professor positions with a primary emphasis on occupational safety and health, environmental health, intervention research in prevention and population health. Successful candidates will have a history of relevant externally funded research, research program development, and research productivity. Preference will be given to candidates with experience and/or a strong interest in interdisciplinary research. The successful candidate will be expected to develop an extramurally funded, independent research program. The Department of CFM was created to improve healthcare in the Carolinas and is a bridge between the Duke Health System and the communities we serve. Made up of a diverse range of Divisions including Occupational and Environmental Medicine, Family Medicine, Physician Assistant, and Community Health, the Department of CFM encompasses the core disciplines required to tackle the difficult task of improving population health. Opportunities are available for research collaboration with faculty in the Department of CFM, School of Medicine, Nicholas School of the Environment, Duke Global Health Institute, Fuqua School of Business, and the School of Nursing.

Minimum Qualifications: Candidates should have doctoral level training in health services research or epidemiology (PhD, ScD, or MD with epidemiology training) or a related field with a strong record of research including a focus on design, analysis and methodological development studies. Knowledge of advanced statistical methods is required as is ability to manage and link large administrative datasets. Strong organizational and communication skills are required. Candidates must have a strong record of scholarship with experience as a principal investigator and collaborator on externally funded research.

To Apply: Applications should be submitted using Academic Jobs On Line

<https://academicjobsonline.org/ajo>

Additional information on the position may be obtained from: Dennis Darcey, MD, MSPH, Division Chief, and John Dement, PhD, Duke Occupational and Environmental Medicine: dennis.darcey@duke.edu

Duke University is an Affirmative Action/Equal Opportunity Employer committed to providing employment opportunity without regard to an individual's race, color, religion, age, gender, sexual orientation, national origin, genetic information, veteran status, or disability.

University of Rochester Medical Center: Full-Time Faculty Position

The center is seeking a board-certified / eligible Occupational Medicine Physician to join our group at the University of Rochester, Division of Occupational & Environmental Medicine. This is a combined clinical and academic position that involves patient care, teaching, and the opportunity for clinical research.

This physician will work in two clinical programs. The first program is a large, hospital-based Occupational & Environmental Medicine Clinic that serves local industry and provides employee health care for the University of Rochester Medical Center. The second program is Finger Lakes Occupational Health Services, a publicly-funded, public health model clinic, which is part of the New York State Occupational Clinics Network.

Basic qualifications for this position include a M.D. or D.O. degree, New York State Medical License, ABPM-OM board certification or eligibility, BCLS certification, MRO certification, and NRCME certification. One to three years of clinical experience is desired. Clinical responsibilities will include MRO activities, completion of various physical examinations, work-related injury / illness care, independent medical examinations, and workplace investigations.

The Division of Occupational & Environmental Medicine is part of the Department of Environmental Medicine, which includes a major NIEHS research center and a highly ranked environmental medicine/toxicology PhD. research training program. We have a close-knit occupational medicine community with Occupational Medicine Grand Rounds held monthly throughout the academic year.

Interested candidates should submit their curriculum vitae and date of availability to Bruce A. Barron, M.D. (bruce_barron@urmc.rochester.edu). The University of Rochester is an Equal Opportunity Employer.

Occupational Medicine with Excellent Benefits at Major Academic Medical Center

The Ohio State University Wexner Medical Center is currently recruiting a Board Certified Occupational Medicine physician for a full-time 100% clinical position.

The preferred candidate will provide licensed medical care including examination, evaluation and treatment of patients within the patient services center in a prompt, courteous and professional manner. This will include, but not limited to, injury evaluation and care,

employment screenings, drug and alcohol screenings, ancillary testing, immunizations, x-ray and laboratory services.

Minimum Qualifications: MD or DO; successful completion of a residency training program; board certified in Occupational Medicine; *board certified in Family Medicine (preferred, not required); DEA and Ohio medical license or ability to obtain an Ohio license; Must be supportive of academic medicine

The Ohio State University Wexner Medical Center is the only academic medical center in central Ohio and has been ranked as one of the top 5 academic medical centers in the United States by the University Health System Consortium for delivering high-quality, safe and effective care. We have been ranked in several specialties by the U.S. News & World Report and named as one of "America's Best Hospitals" for over 20 consecutive years.

For consideration, please send CV to: Trevor Bethel, DASPR, Physician/Faculty Recruitment
The Ohio State University Wexner Medical Center, trevor.bethel@osumc.edu

The Ohio State University is an Equal Opportunity/Affirmative Action Employer. Qualified women, minorities, Vietnam-era Veterans, disabled veterans and individuals with disabilities are encouraged to apply.

Rocky Mountain Center for Occupational and Environmental Health-University of Utah

Two Positions in Industrial Hygiene

Open Rank: Rank to be determined by experience: One Early Career (e.g., Instructor or Assistant Professor) and One Advanced Rank (e.g., Associate Professor or Professor). These exciting tenure-track positions with a growing, nationally-recognized Industrial Hygiene (IH) program have responsibilities in areas of research, teaching, and administration with significant innovative potential. In addition to classroom and/or distance-based teaching, student guidance and research, these may also involve up to 25% administration and service activities for more senior-level appointment(s).

Job Summary – Both Faculty Positions: Serve as a faculty member in the IH program in the NIOSH supported Rocky Mountain Center for Occupational and Environmental Health, Department of Family and Preventive Medicine at the University of Utah. Develop/maintain an independently-funded research program. Other tasks include: [teach 2 IH courses per year](#); recruit, mentor and guide assigned students in the Master of Science in Occupational Health (MSOH) and Ph.D. in Occupational and Environmental Health (OEH) degree programs.

Technical Responsibilities: Develop and conduct research in an IH-related field of expertise. Provide guidance for IH students on planning and conducting research projects, and teach or guide them on how to analyze, evaluate and report IH data. Collaborate with or otherwise assist other IH and occupational health faculty with technical assistance or expert advice on studies and/or research projects.

Supervisory Responsibilities: Both positions require the faculty person to provide curricular guidance to assigned IH students as their Research Committee Chair, supervise student research, and coordinate with a technical writer to assure timely and accurate completion of project manuscripts/theses or dissertations as applicable. The advanced rank position would require supervision and mentoring of junior faculty, interfacing with faculty in other University

of Utah departments and programs, and assuming more administrative responsibilities as needed.

Qualifications: A Ph.D. in Industrial Hygiene, Occupational and/or Environmental Health, Environmental Engineering, or a related field is required for both positions. For advanced rank, five or more years of experience in IH and Certification as a CIH by the American Board of Industrial Hygiene are required. In addition, a history of external research funding is also required. For early career level, applicant should be eligible to take the CIH examination within 3 years.

Link to the online application: <http://utah.peopleadmin.com/postings/35743>

Additional information on the position may be obtained from: Rod R. Larson, Ph.D., CIH, Rod.larson@hsc.utah.edu, Director, Industrial Hygiene, RMCOEH, University of Utah, 391 Chipeta Way, Suite C, Salt Lake City, UT 84108

The University of Utah is an Affirmative Action/Equal Opportunity employer. To inquire about the University's nondiscrimination or affirmative action policies or to request disability accommodation, please contact: Director, Office of Equal Opportunity and Affirmative Action, 201 S. Presidents Circle, Rm 135, (801) 581-8365.

Director of Outreach and Education-Syracuse, NY

The Department of Family Medicine at Upstate in Syracuse, NY is currently looking for a Director of Outreach and Education for the Occupational Health Clinical Center. Duties include, but not limited to:

- Administer OHCC outreach and education programs in 26 counties, which includes Central New York, the North Country and the Southern Tier regions of New York State
- Assume primary responsibility for implementing a program of outreach/education in the Central New York Region
- Direct, supervise and evaluate activities of two regional outreach and education coordinators. Ability to travel regionally is essential. For additional information and to apply for job 040157 https://jobsatupstate.peopleadmin.com/applicants/jsp/shared/position/JobDetails_css.jsp?postingId=588471

BC/BE Occupational Medicine Physician Opportunity – New York

The Mount Sinai Selikoff Centers for Occupational Health in New York, NY are seeking a BC/BE Occupational Medicine Physician to join a dynamic and collaborative medical team at the newly renovated Manhattan clinical center at The Mount Sinai Hospital. Physician will:

- Provide evidence-based clinical evaluation and treatment for work-related injuries and illnesses
- Evaluate, monitor, and treat WTC-disaster related illnesses
- Perform medical screenings for groups with exposures to hazards, such as asbestos, lead, and other toxic substances

Multiple opportunities for growth, including research, teaching, and an associate residency director role available to academically interested candidates. We offer a highly competitive compensation/benefits package. The Selikoff Centers are part of the Department of Preventive Medicine at the Icahn School of Medicine at Mount Sinai, which is ranked among the top 20

medical schools both in the National Institutes of Health funding and by U.S. News & World Report. To apply, please email your CV to joanna.ortiz@mssm.edu.

Industrial Hygienist-Cincinnati, OH

NIOSH is looking for an industrial hygienist to fill a position in its Health Hazard Evaluation Program located in Cincinnati, Ohio. This is a full-time position being offered as part of a CDC fellowship program. Job responsibilities include conducting workplace health hazard evaluations. The successful candidate would be a member of a team of medical epidemiologists, industrial hygienists, social scientists, ergonomists, and statisticians. The position affords the opportunity for travel within the United States and interaction with employee and employer representatives as well as other health and safety professionals. Candidates should have a minimum of a Master's degree in industrial hygiene or a related field. For more information about the HHE Program, visit our website at <http://cdc.gov/niosh/hhe/> For further information about the position, contact Teresa Seitz, MPH, CIH, at tes2@cdc.gov.

University of California-Davis Faculty Position

The University of California, Davis, School of Medicine, Department of Public Health Sciences invites applications for a faculty position at the Assistant or Associate Professor level with expertise in occupational or environmental health and/or epidemiology teaching and research. This is a full-time tenure track appointment. A doctoral degree (e.g., PhD, DrPH, or MD) in a relevant field is required. The candidate must have experience with population-based occupational and environmental health research or exposure science related to occupational and environmental health outcomes. Special preference will be given to applicants with experience addressing health and safety of immigrant and contingent workers, agricultural workers and/or with global occupational health issues.

More information and application instructions available at:

<https://recruit.ucdavis.edu/apply/JPF00415>

University of California-Labor Occupational Safety and Health (UCLA-LOSH) Program

HazMat Trainer/Coordinator

UCLA-LOSH is hiring a trainer/coordinator to teach, coordinate HazMat courses, provide technical support to LOSH staff and partners, and assist with outreach to improve workplace health and safety conditions and support community environmental justice initiatives in Southern California. Applicants must have field experience with worker training and with hazardous materials/hazardous waste programs including familiarity with first responder or emergency response activities. Field experience with worker safety and/or industrial hygiene programs is also desirable. Position can be full-time or part-time. UCLA-LOSH is a nationally recognized program and the lead organization of the NIEHS-funded Western Region Universities HazMat Training Consortium (WRUC). LOSH develops education programs and conducts research to inform public policy: [HazMat Trainer-Coordinator.pdf](#) Full or part-time.

Worker Health & Safety Educator/Coordinator

UCLA-LOSH is hiring an educator/ coordinator to develop worker health and safety programs through collaboration with a variety of labor, community, labor-management and employer partners. Applicants must have experience using interactive education approaches to develop leadership skills and to support worker engagement in workplace and community H&S activities. Bilingual communication and teaching skills are strongly preferred. UCLA-LOSH is a nationally recognized program dedicated to improving workplace health and safety conditions through outreach, education, research and policy initiatives with a focus on Southern California workers: [HS Educator-Coordinator.pdf](#)

Please see the full job announcements at losh.ucla.edu. Send resumes to Karen Murray: kmurray@irle.ucla.edu and Linda Delp: ldelp@ucla.edu.

CDC/ATSDR Director of the CDC Washington office

. The incumbent of this executive-level position will:

- Serve as the primary representative of CDC/ATSDR in Washington, D.C.;
- Serve as spokesperson for the CDC Director in contacts with high level officials, including members of Congress and their staffs, White House officials, representatives of other Federal agencies, and health officials from state and local health departments and from health ministries of foreign governments in both informal interaction and in formal policy formulation;
- Serve as a principal advisor to the CDC Director and as a member of the senior staff and participate in the determination of CDC/ATSDR objectives and priorities;
- Provide strategic advice on interpreting national policy directions, Administration initiatives, Congressional interests, and other Washington dynamics and how they influence the direction of CDC/ATSDR and public health initiatives for achieving maximum public health impact;
- Provide strategic advice to CDC/ATSDR leadership and communication officials on unique aspects of communication with Washington-based and policy-related audiences, including emergency communications;
- Provide oversight and manage proper preparation of proposed testimony for Congressional hearings on legislation affecting CDC/ATSDR. In the absence of the CDC Director and with DHHS approval, present such testimony;
- Advise and interpret the scientific implications of pending legislation or regulations to the Congress and HHS using public health training in data analysis; and
- Supervise a staff of professional, technical, and administrative employees.

Interested candidates must apply online before midnight EDT on **April 22, 2015** at <https://www.usajobs.gov/GetJob/ViewDetails/396597600>. Specific qualification and eligibility criteria can be found in the job announcement. Dana Shelton, search committee chair, is available at dzs8@cdc.gov to answer questions regarding the position.

World Trade Center Health Registry-Director of Research

The World Trade Center Health Registry, housed in the Division of Epidemiology in one of the country's largest and innovative health departments, has an opening for a Director of Research.

The Registry monitors the long-term physical and mental health and gaps in care among a diverse cohort of 71,000 people exposed to the events of 9/11, including lower Manhattan residents, school children and persons who worked in the area, rescue/recovery workers and volunteers, and passersby on 9/11. The Registry also responds to 9/11-related health needs and concerns through referrals to care and dissemination of findings to enrollees and the public.

The selected candidate will have the opportunity to help shape the future Registry research agenda, and lead manuscript teams, if desired. Key topics in the Registry's 2015 ("Wave 4") health survey include chronic diseases; cancer; respiratory health and asthma control; mental health measures and treatment history; tobacco, alcohol and substance use; and cognitive functioning.

The Director of Research, under the direction of the Director/Principal Investigator of the WTCHR, and in coordination with the WTCHR's Deputy Director, will be responsible for oversight and guidance of the scientific activities of the Registry.

To apply online go to <https://a127-jobs.nyc.gov/>. In the Job ID search bar, enter: job ID number # 184679

Residency Requirement-New York City residency is required within 90 days of appointment. However, city employees in certain titles who have worked for the City for 2 continuous years may also be eligible to reside in Nassau, Suffolk, Putnam, Westchester, Rockland, or Orange County. To determine if the residency requirement applies to you, please discuss with the agency representative at the time of interview.

Tenure-Track Faculty Position in Industrial Hygiene and Occupational Safety University of Puerto Rico – Medical Sciences Campus

The Graduate School of Public Health at the University of Puerto Rico – Medical Sciences Campus invites applications for a tenure-track position at the rank of Assistant Professor. The successful candidate must fulfill the following requisites: a) be a United States Citizen or Permanent Resident fluent in Spanish and English; b) develop and administer graduate courses in industrial hygiene sampling, industrial ventilation, industrial noise assessment and control, industrial toxicology, occupational safety, occupational health and systems safety design; c) develop and maintain an extramurally funded research program in industrial hygiene, occupational safety and health or related research areas; d) interact with local industry on behalf of the program; e) hold or commit to obtain CIH credentials within the first 5 years of employment; f) actively participate in the program's curriculum development and student recruitment activities; and g) be willing to gradually incorporate student mentoring as part of the workload. Applicants who promote a solid and friendly technical interaction with students in class, with expertise in exposure assessment, risk assessment or epidemiology approaches related to understanding the mechanisms of hazardous agents on human health and their control are encouraged to apply. Documented field and teaching experience are individually or combined considered a plus. The position is competitive with regards to local salary and laboratory space.

Qualifications: Candidates must have a Ph.D. or equivalent degree in Industrial Hygiene, Occupational Safety and Health or related field, and relevant research experience.

Applications: Please e-mail a curriculum vitae, a brief statement of current and future research interests, and contact information for three references to Dr. Sergio A. Caporali Filho, Chair of the Faculty Search Committee, at sergio.caporali@upr.edu. Applicants are encouraged to apply by April 15, 2015 for full consideration. Review of applications will continue until the position is filled. A background check will be required for employment in this position. Desirable start up date is June 2015.

Occupational Medicine Residency Director-California

The Center for Occupational and Environmental Health and Division of Occupational and Environmental Medicine, Department of Medicine, at the University of California, Irvine, School of Medicine, is seeking an occupational medicine physician with a strong clinical and teaching interests to join our faculty as Assistant or Associate In the Health Science Clinical Professor Series, and Director of the Occupational Medicine Residency program. Our program provides occupational medicine specialty services with a broad referral base. This position will involve a balance between clinical practice and coordinating our established residency program. Time could be provided for funded research. The ideal candidate would have prior experience in teaching or leadership of an occupational medicine residency program and experience in providing clinical consultations on complex occupational and environmental medicine issues. The candidate must be board certified in occupational medicine and eligible for licensure in the State of California. Salary commensurate with experience. Interested candidates should contact Dean Baker, MD, MPH; Professor and Chief, Division of Occupational and Environmental Medicine, 100 Theory, Suite 100, Irvine, CA 92617. (dbaker@uci.edu)

TO APPLY: Applicants should complete an online application profile and upload their Curriculum vitae electronically to be considered at: <https://recruit.ap.uci.edu/apply/JPF02619>

Tenure Track Faculty Position-Industrial Hygiene

Tulane University School of Public Health & Tropical Medicine invites applications for a tenure track faculty position in the Department of Global Environmental Health Sciences at the Assistant or Associate Professor level, with rank determined by experience and accomplishments. The successful candidate will join our ABET-accredited graduate program in industrial hygiene and participate in research and teaching in the areas of industrial hygiene, occupational health, and disaster management.

Applicants should demonstrate strong interest or experience in interdisciplinary environmental public health research and teaching in one or more of the following areas: general industrial hygiene, exposure assessment, occupational epidemiology, indoor air quality, emerging industrial hazards, disaster response and management. In addition to individual research and teaching, the successful candidate will have opportunities to collaborate with other faculty in the Department of Global Environmental Health Sciences, other departments in the School of Public Health and Tropical Medicine, and other schools and centers within Tulane University.

Applicants must possess a terminal degree in industrial hygiene or relevant field and be board certified (ABIH) or eligible to attain certification within 3 years. For consideration at the rank of Associate Professor, candidates must have an established, vibrant research program with a history of external funding.

Applications will be accepted online through Interfolio beginning September 19, 2014 and continue until the position is filled. Use the link below to submit a cover letter, CV, research plan, and contact information for three (3) references: Application URL:

<http://apply.interfolio.com/26519>

Questions about the position or requests for additional information may be directed to: Roy J. Rando, ScD, CIH, Professor and Vice Chair, Department of Global Environmental Health Sciences, Tulane University School of Public Health & Tropical Medicine, 1440 Canal Street, Suite 2100, New Orleans, LA 70112-2704, Tel: 504-988-3870

VA Medical Center Cleveland

The Louis Stokes Veteran's Administration Medical Center (LSVAMC) is seeking a full time Occupational Medicine Physician. The applicant should be BC/BE in occupational medicine or have equivalent experience. Responsibilities include the performance of preplacement examinations for a wide range of medical and nonmedical staff at the Medical Center; periodic examinations for police officers and those with significant exposure to noise, hazardous medications, etc.; work related injury care, return to work examinations and limited sick call. Familiarity with healthcare worker immunization; tuberculosis monitoring requirements; evaluation of potentially infectious body fluid exposures and; the performance of formal fitness for duty evaluations is required. The applicant should have MRO certification or be able to obtain certification. Willingness to do limited primary care and/or formal compensation and pension examinations would be a plus.

LSVAMC is a Cleveland area hospital system with several community-based outpatient clinics and more than 5000 staff, medical trainees and volunteers. The Personnel Health Department is staffed with physicians, physician extenders, nurses and administrative personnel.

For more information on the application process contact Charles Kelades Charles.Kelades@va.gov

Center for Asbestos Related Disease-Physician

The Center for Asbestos Related Disease (CARD) is recruiting a physician who is passionate about pulmonary occupational and environmental medicine for clinical patient care and asbestos disease research collaboration. In the northwest corner of Montana, CARD has emerged as a national center of excellence in addressing health care and health research associated with Libby amphibole asbestos. CARD is a non-profit clinic generated by community response to the nation's first and only Public Health Emergency.

Clinical care of the Libby amphibole cohort allows a unique depth of understanding of asbestos disease, over the course of individual progression and over generations. This unique

perspective translates into informed research opportunities, increasing the chance of developing meaningful therapeutic intervention. To facilitate this research CARD maintains key relationships with established academic and institutional research partners within a globally comparative field of environmental fiber exposure. In addition to advancing the science of ARD, providers maintain a part-time clinical schedule managing advanced asbestos disease as well as supporting a national asbestos health screening program. Two medical providers and a team of twenty staff members provide holistic patient care, including counseling services, respiratory therapy and nurse case management.

CARD is an outpatient clinic, open Monday through Thursday, with no call requirements, serving an expanding patient population of 4,000. Our location on the beautiful Kootenai River, amongst mountainous wilderness, makes this opportunity a surprising combination of academic stimulation, rewarding patient care, and personal quality of life for those who enjoy outdoor recreational opportunities. For further information on this career opportunity: Michelle Boltz, NP-C 406.293.9274, ext 136 Michelle@libbyasbestos.org or go to www.libbyasbestos.org

Fellowships

Recruiting for the UW Occupational Health Services Research Doctoral Traineeship

The University of Washington is actively recruiting for our occupational health services research (OHSR) doctoral traineeship, for Autumn 2015 admission. Please share this notice with anyone who might be a good candidate for our PhD program. The application deadline is December 15, 2014. The [Occupational Health Services Research Training Program](#) includes tuition, travel, and research support, as well as a stipend. The program is one of only two NIOSH-funded OHSR programs in the United States, and is part of the [Northwest Center for Occupational Health & Safety](#), a NIOSH-funded Education and Research Center (ERC). Trainees have the opportunity to participate in ongoing research projects through the [Occupational Epidemiology and Health Outcomes Program](#), as well as to undertake field-based studies in external organizations such as the [Washington State Department of Labor and Industries](#). Alumni from the program work in research, educational, and government institutions, designing and evaluating programs to ensure effective, efficient, and equitable care for workers. (Please note: Due to federal rules, this traineeship is only available to U.S. citizens and permanent residents.) If you have questions, please contact Jeanne Sears, PhD, RN, Research Associate Professor, jeannes@uw.edu.

Pediatric Environmental Health Fellowship –

The University of Washington Division of General Pediatrics

The fellowship is funded through the [University of Washington's NRSA Primary Care Fellowship](#) in conjunction with general internal medicine and family medicine. Grant funding is provided by the National Institute of Health and administered by the Public Health Service Health Resources and Services Administration. Fellows participating in this are eligible for the NIH loan repayment program. We provide two years training in research methods, research experience with an established investigator, and the opportunity to enroll concurrently in the

Master of Public Health program. Fellows assume a precepting role in one of our pediatric residency clinics and provide consultations in our Pediatric Environmental Health Specialty Unit (PEHSU).

The UW Division of General Pediatrics and the affiliated Center for Child Health, Behavior and Development of Seattle Children's Research Institute, the Child Health Institute of the University of Washington, the Harborview Injury Prevention and Research Center, and the Northwest Pediatric Environmental Health Specialty Unit provide rich and diverse mentoring opportunities for Pediatric NRSA fellows. Potential applicants can access further information and apply on the website: <http://nrsafellowship.weebly.com/>

Fellowship Training Program in Pediatric Environmental Health – Mount Sinai School of Medicine

The Mount Sinai School of Medicine invites qualified applicants (MD or PhD) to apply for a 3-year post-residency/postdoctoral fellowship training program in Pediatric Environmental Health sponsored by the National Institute of Child Health and Human Development (NICHD). This program provides training in epidemiology, biostatistics, toxicology, risk assessment and preventive medicine, and includes course work leading to a Master of Public Health (MPH) degree. The capstone of the fellowship is a mentored research experience that is intended to train fellows in the successful conduct of research and will lead to the production of publishable manuscripts. The mentored research project serves also as the basis for each fellow's MPH thesis. Fellows gain additional training in clinical research, policy development and evidence-based advocacy. Clinically trained fellows will gain clinical experience in environmental pediatrics through the Agency Toxic Substance and Disease Registry (ATSDR) and the Environmental Protection Agency (EPA) supported Pediatric Environmental Health Specialty Unit. The goal of the program is to produce future research leaders in the emerging field of pediatric environmental health who will be positioned to lead the National Children's Study and populate academic health centers across the United States. Up to two positions are available each academic year. Members of under-represented minorities are strongly encouraged to apply. For a brochure or other information, contact Damiris.Perez@mssm.edu or phone 212-824-7109.

Abstracts

LRAN Annual Conference

The New Scholars Committee is extending the Poster session CFP deadline in order to May 15th. We ask all those interested in presenting their project in poster session format to send proposals to Thea Michailides (committee co-chair) at tmichailides@iupat.org with the subject "**Poster Session**" by the above deadline. Here is a link describing some of what is involved in putting together a poster session presentation: <http://guides.nyu.edu/posters>

Conferences and Meetings

National Occupational Injury Research Symposium (NOIRS 2015)

May 19-21, 2015

Kingwood, WV

NIOSH is pleased to announce that NIOSH will hold the sixth Co-sponsors are American Society of Safety Engineers, Liberty Mutual Research Institute for Safety, National Safety Council, and Society for Advancement of Violence and Injury Research. NOIRS is the only national forum focused on the presentation of occupational injury research findings, data, and methods. The theme for NOIRS 2015 is “Advancing Occupational Injury Research through Integration and Partnership.” Additional information: <http://www.cdc.gov/niosh/noirs/2015/>

2015 Lela Morris COEH Symposium

National Perspectives on Ergonomics, Workplace Design, and Health

May 22, 2015

Berkeley, CA

The design of the workplace, from level of tools to the overall organization, has a strong influence on the health and well-being of our working population. This half-day conference will explore key factors in the design of work that can improve safety, health, and productivity. The talks will be practical, include real-world case studies, and be followed by moderated panel discussions.

National Canadian Occupational Health Nurses Conference

May 27-29, 2015

Edmonton Alberta

Save the date for the Alberta Occupational Health Nurses Association 2015 Provincial Symposium. Contact us at: <http://aohna.org/aohna-symposium/2015-aohna-symposium> or info@aohna.ab.ca

AIHce 2015

May 30-June 4, 2015

Salt Lake City, UT

AIHce’s highly-rated education program offers an extensive selection of sessions that will allow you to expand your expertise, explore new topics, and, ultimately, advance your career. In addition to the main conference program, AIHce also features specialized pre-conference education, interactive sessions, technical tours, and more. www.aihce2015.org

Graduate Summer Institute in Environmental Health Sciences at

Johns Hopkins School of Public Health-Summer Institute

June 1-19, 2015

Baltimore, MD

The Department of Environmental Health Sciences at Johns Hopkins School of Public Health will host a summer institute from June 1–19 with seven full courses and three 1-day short courses offered over the 3-week period. Courses are designed for practicing public health professionals with responsibilities for health, safety, and environmental matters and for students who are interested in learning more about environmental health sciences concepts. For more information go to <http://www.jhsph.edu/departments/environmental-health->

[sciences/summer-institute/](#) The full courses include: Climate Change and Public Health; Environmental and Occupational Epidemiology; Case Studies in Food Production and Public Health; Environmental Health; Public Health Toxicology; Fundamentals of Human Physiology; and Industrial Hygiene Laboratory. One-day short courses include: Risk Analysis of Engineered Nanomaterials; Aquaculture, Seafood and Public Health; and Air Sampling Laboratory

National COSH Conference on Worker Safety and Health.

June 2-4, 2015

Baltimore, MD

The conference program will begin at 1 PM on Tuesday, June 2, with Regional Networking Roundtables, followed by afternoon workshops (registration begins at 11 AM). And join a special optional Health and Safety Stand-UP on Friday, June 5th. Registration now open at <http://www.coshnetwork.org/general-conference-information-and-logistics>

Agricultural Medicine:

Occupational & Environmental Health for Rural Health Professionals

June 8-12, 2015

Iowa City, IA

Appropriate for safety and health managers, graduate students, nurses, physicians, veterinarians, and anyone interested in the unique safety and health needs of rural and agricultural communities. Register [online](#) or call 319-335-4141. Pre-registration is required. Registration fee includes course materials, continental breakfasts, and awarding of continuing education credits.

Promoting Health & Safety for Workers with Disabilities:

Realizing the Promise of the ADA

June 9-10, 2015

Chicago, Illinois

The Americans with Disabilities Act turns 25 this year! This conference will explore its impact in the workplace. Continuing education credits will be available for completing 7 contact hours. Information on the conference at registration website. <http://www.cvent.com/d/srqmr2> For more information: Marsha Love at lovem@uic.edu (312) 996-9568

2015 Labor Research and Action Network (LRAN) Conference

June 15-16, 2015

Washington, DC

The Kalmanovitz Initiative for Labor and the Working Poor will host the conference, which will explore how labor unions and other worker-based organizations can effectively collaborate. The conference will examine methods of building worker power and advancing a new social movement in an economy where collective bargaining is imperiled, and where employer-employee relationships are increasingly fragmented. Scholars, labor practitioners and activists from across the country will convene to reflect on this core theme, share news ideas and lessons learned, and connect around research and campaign work. For more details

Supervising Asbestos Abatement Projects – Initial Course

June 22-26, 2015

Chapel Hill, NC

This 4 1/2 day, EPA approved course provides a comprehensive discussion of the practices and procedures used in asbestos abatement projects. It is designed to meet the OSHA requirement for a "competent person" and the EPA requirement for an "accredited supervisor" to supervise asbestos abatement projects. Includes techniques on set-up, sampling, respiratory protection and other key aspects to assist in understanding the principles and practices of worker health and safety in asbestos-related work.

<http://osherc.sph.unc.edu/continuing-education/courses/supervising-asbestos-abatement.html>

The Future of Occupational Health Symposium

June 24-25, 2015

Seattle, WA

The symposium (<http://deohs.washington.edu/future/symposium>) will bring together Thought Leaders to reflect on the future of occupational health in regard to practice, policy, research, and the education of practitioners, businesses, and workers. In this highly interactive symposium, participants will be called upon to develop an actionable agenda to address the changing needs of the field of occupational health.

The symposium will be the culmination of the Future of Occupational Health Speaker Series (<http://deohs.washington.edu/future/calendar>), sponsored by the Department of Environmental and Occupational Health Sciences in the University of Washington School of Public Health. Learn more about the symposium:

<http://deohs.washington.edu/future/symposium>; register at

<https://osha.washington.edu/professional-development/course/foh> or for questions contact Marissa Baker, Symposium/Speaker series organizer at futureoh@8uw.edu

38th Annual Occupational Safety and Health Summer Institute

July 26-31, 2015

Portsmouth, Virginia

The Summer Institute is an integral and long established part of the Continuing Education Program at the North Carolina Occupational Safety and Health Education and Research Center (NC OSHERC) at The University of North Carolina at Chapel Hill. The Summer Institute offers a week-long interdisciplinary conference with over 30 courses varying in length from one to five days. Courses include, Occupational Health Nursing Certification Review, OSHA Recordkeeping Rules_Implementing World-Class Ergonomics_Biosafety for Safety and Health Professional (Certified Biological Safety Professional Review) and much more. Occupational Health Nurses and Physicians, Safety Professionals, Industrial Hygienists and others with an interest in community and occupational health are encouraged to attend. It provides the opportunity to complete the requirements for three Technician Certificate Programs (IH, Safety, and Environmental). Registration and class lists will be open in March 2015.

NIOSH-Approved Spirometry Refresher Training

June 26, 2015

Coralville, IA

NIOSH approved training is designed to provide a review of current spirometry testing standards and guidelines, common errors and corrective actions, and how to differentiate between normal, obstructive, restrictive, and mixed lung disease patterns. This course is intended for nurses, medical assistants, and other occupational health and safety practitioners who are responsible for conducting spirometry in the workplace or other settings. Contact: Contact Megan Meyer at megan-cz-meyer@uiowa.edu or 319-335-4684 for more information or to get registered.

Solutions in Safe Patient Handling

June 30, 2015

New York, NY

With a growing body of evidence-based research on safe patient handling and the recent passage of safe patient handling legislation designed to protect health care workers in New York, there is an opportunity to shift the paradigm on safe patient handling. This conference is intended for administrators, physicians, nurse risk managers, direct patient care givers, rehabilitation therapists, ergonomists and safety professionals as well as faculty, residents, and students interested in advancing worker and patient safety in health care.

Sponsored by the Mount Sinai Selikoff Centers for Occupational Health. Information at:

<https://mountsinaisph.wufoo.com/forms/z1wk9hxn16t1i7m/>

COEH-CE Summer Institute

July 27- 31 2015

Berkeley, CA

The Summer Institute features the following classes:

- Comprehensive Review of Industrial Hygiene (Mon-Fri)
- Fundamentals of Industrial Hygiene (Mon-Thurs)*
- Fundamentals of Workplace Safety (Mon-Tues)
- Workers' Compensation: Emerging Issues and Best Practices(Wed)
- Fundamentals of Workers' Compensation (Thurs)
- Total Worker Health (R) (Thurs)
- Emerging Issues in Ergonomics (Fri)

or <https://www.coehce.org/ShowSchedule.awp?&Mode=GROUP&Group=OTHESI&Title=Summer+Institute>

Addressing Environmental Health Inequities

27th Meeting of the International Society for Environmental Epidemiology (ISEE)

August 30 to September 3, 2015

Sao Paulo, Brazil

ISEE will explore work in infectious disease, air pollution, climate change, indigenous health, occupational medicine, and water pollution. The Organizing Committee Chair is Nelson

Gouveia, School of Medicine, University of Sao Paulo, Brazil. For details go to www.isee2015.org

OSHA Respirator Essentials and Fit Testing

September 14, 2015

Chapel Hill, NC

This one day course is designed for every health and safety professional involved in respiratory protection. OSHA requirements for a respiratory protection program will be reviewed and hands-on workshops will provide practical experience in both quantitative and qualitative fit testing. At the satisfactory completion of this course, you will receive a Certificate of Completion for Respiratory Fit Testing.

<http://osherc.sph.unc.edu/continuing-education/courses/osha-resp-essentials.html>

Supervising Asbestos Abatement Projects – Refresher Course

September 15, 2015

Chapel Hill, NC

This is an EPA- and North Carolina-approved AHERA course that is required to maintain certification as a supervisor of asbestos products.

<http://osherc.sph.unc.edu/continuing-education/courses/supervising-asbestos-abatement-refresher.html>

Building Inspection for Asbestos - Refresher Course

September 16, 2015

Chapel Hill, NC

This is an EPA- and North Carolina-approved AHERA course that is required to maintain certification as a building inspector for asbestos.

<http://osherc.sph.unc.edu/continuing-education/courses/building-inspection-for-asbestos-refresher.html>

Management Planning for Asbestos - Refresher Course

September 16, 2015

Chapel Hill, NC

This is an EPA- and North Carolina-approved AHERA course that is required to maintain certification as a management planner for asbestos.

<http://osherc.sph.unc.edu/continuing-education/courses/management-planning-for-asbestos-refresher.html>

Certified Hazardous Materials Manager (CHMM) Review Course

September 21-24, 2015

Chapel Hill, NC

The **4-day** Certified Hazardous Materials Manager (CHMM) Review Course is designed to provide a review of the major subject areas defined by the [Institute of Hazardous Materials Management](#). Attendees are assumed to have a basic understanding of the fundamentals of each of these subject areas.

<http://osherc.sph.unc.edu/continuing-education/courses/chmm-review.html>

Certified Safety Professional (CSP) Review Course

November 2-6, 2015

Chapel Hill, NC

This 4 1/2 day course is designed to provide a comprehensive review of the field of safety and related areas through lectures by qualified faculty with extensive experience in the safety field. Sample problems and discussion will also be used as teaching methods. Useful tips on study techniques will be covered. The course is specifically designed to assist participants in preparing for the Core (ASP) and Comprehensive/Specialty (CSP) examinations. This course will provide you with an overview of the areas that will be the focus of your exam preparation efforts and highlight any weak areas you may have. Others needing a comprehensive review are also encouraged to attend.

<http://osherc.sph.unc.edu/continuing-education/courses/certified-safety-professional-review.html>

Ongoing Educational Courses

Summer II 2015 - PubH 6199.11

Veterans, Deployment & Environmental Issues - 1 credit - Dr. David Goldsmith

Note that this class meets on Mondays, 6:10pm - 8:40pm, July 6 – Aug 10, 2015

For more information, please email or call Dr. Goldsmith (dgoldsmi@gwu.edu), or call [202.549.1019](tel:202.549.1019)) The university can accommodate students wishing to participate online. This course examines the historical and current policy concerns about environmental exposures and the risks of illness among deployed troops and military veterans. The class will emphasize troops' exposure during Afghanistan and Iraq conflicts, Vietnam, and the Gulf War. It will examine the roles of DOD, the Veterans Administration, and the Institute of Medicine in health protection, exposure monitoring, health research, and policies regarding service-connected disabilities. Current topics such as sexual assault, the increase of women vets, and delays in VA disability benefits, burn pits, and PTSD/traumatic brain injuries will be included. Students will write a paper and make a short presentation on a topic of interest. Both written and oral communication will be emphasized throughout the course. There is **no** exam.

Graduate Certificate Program in Occupational and Environmental Health: Georgetown University is pleased to announce a new graduate-level Certificate in Occupational and Environmental Health Program (COEH). The COEH is designed for safety and health practitioners with strong science backgrounds who are interested in targeted graduate-level education. The 12-credit program can be completed in two semesters of evening classes, and enables students to integrate scientific exposure assessment through occupational hygiene and safety science methods, assess toxicological information about disease outcomes, and develop and apply interventions to reduce exposure to occupational and environmental hazards including in the workplace, the community, and the larger environment. Completion will ensure that educational requirements will have been met to permit students to sit for the Certified Industrial Hygienist (CIH) examination or the Certified Safety Professional (CSP) examination.

Please explore our Web site at <http://coeh.georgetown.edu> or contact Ms. Sarah Shohet at Sarah.Shohet@georgetown.edu for more information.

Master International Occupational Safety and Health

The main objective of the Master International Occupational Safety and Health is to train professionals in the field of Occupational Safety and Health (OSH). Therefore, we offer tools for research and work in OSH, both in Latin American countries as well as at an international level. We offer an international and interdisciplinary training in global OSH with focus on project-based learning. The two-year program is held in Spanish (first year), and English (second year). In order to ensure maximum flexibility and efficiency, the master program is based on the concept of blended learning. The Master includes:

- Three short-term modules with compulsory attendance (2 in Latin America, 1 in Munich)
- Research project work, during which students receive support from local tutors
- Online courses with discussions, case-based e-learning, etc.
- Master thesis

For further information please visit our web page: www.osh-munich.de

Fundamentals of Industrial Hygiene - Online

August 18 to December 1, 2015

NC Occupational Safety and Health Research Center, University of North Carolina at Chapel Hill

This course closely follows the Fundamentals of Industrial Hygiene course presented face-to-face at annual [Summer and Winter Institutes](#) presented by the NC OSHERC at the University of North Carolina at Chapel Hill. The online course is a self-paced course to be completed within the dates above. This course is an introduction to the basic concepts of Industrial Hygiene. If you have recently assumed Industrial Hygiene responsibilities or you have experience in other aspects of Safety, Health or Environmental areas and would like to learn more about Industrial Hygiene, then this is the course for you. The course participants will become familiar with the basic terminology, calculation methods, essential concepts and key principles involved in the practice of Industrial Hygiene. Registration for the fall semester will be open in May 2015.

<http://osherc.sph.unc.edu/continuing-education/courses/industrial-hygiene-fundamentals-online.html>

Fundamentals of Occupational Safety - Online

August 18 to December 1, 2015

NC Occupational Safety and Health Research Center, University of North Carolina at Chapel Hill

This course closely follows the Fundamentals of Occupational Safety course presented face-to-face at annual [Summer and Winter Institutes](#) presented by the NC OSHERC at the University of North Carolina at Chapel Hill. The online course is a self-paced course to be completed within the dates above. This course covers the fundamentals of occupational safety and ergonomics with emphasis on legislation of industrial safety and ergonomic programs, including hazard recognition, analysis, control, and motivational factors pertaining to industrial accident and musculoskeletal disorder prevention. The course is taught in a series of modules and grades are based on completing all module readings and assignments and quizzes. The target audience for this course is professionals who have primary or collateral job duties in occupational safety and ergonomics as well as those interested in learning more about this subject. Registration for the fall semester will be open in May 2015.

Online Fundamentals of Industrial Hygiene

Fundamentals of Industrial Hygiene is now being offered online. This course closely follows the Fundamentals of Industrial Hygiene course presented face-to-face at annual [Summer and Winter Institutes](#) presented by the NC OSHERC at the University of North Carolina at Chapel Hill. The next session began August 19, 2014. See website for details: <http://osherc.sph.unc.edu/continuing-education/courses/industrial-hygiene-fundamentals-online.html>

Johns Hopkins Occupational and Environmental Health Nursing Program Program Description

This interdisciplinary program offers masters and doctoral education for nurses who wish to establish competencies in the area of occupational and environmental health. Supported by the

National Institute for Occupational Safety and Health (NIOSH), and a component of the Johns Hopkins Education and Research Center for Occupational Safety and Health (ERC), the Occupational and Environmental Health Nursing program offers Master of Public Health (MPH), joint Master of Science in Nursing/ Master of Public Health (MSN/MPH), and doctoral degrees (PhD* and DrPH). With the exception of the PhD, degree programs can be completed in a part-time format. Many courses are available online.

Master's graduates hold leadership positions in the private sector, federal agencies, consulting, military services, labor unions and other organizations that are concerned with protecting the health and safety of the workforce and community. They are prepared for new opportunities that arise as the field of occupational and environmental health expands. Doctoral graduates enter careers as independent researchers who work in academia, government agencies, and other institutions that focus on the advancement of knowledge in occupational and environmental health. The DrPH program is aimed at integrating and applying a broad range of knowledge and analytic skills in leadership, practice, policy analysis and program management.

The full-time MPH program is 11 months, July-June, and the full-time MSN/MPH program is 18 months, July-December. Part-time online master's programs require a minimum of 4 weeks on-campus. Doctoral programs vary in length. Tuition assistance is available to outstanding candidates.

An online certificate program in Environmental and Occupational Health may be pursued by non-degree students as well as those enrolled in academic programs. The certificate can be completed entirely online.

Further Information visit www.jhsph.edu/erc/oehn or please contact: Dr. Sheila Fitzgerald, (410) 955-4082 sfitzge1@jhu.edu, Johns Hopkins Bloomberg School of Public Health | 615 North Wolfe Street, Room W7503A Baltimore, Maryland 21205.

CIH Online- Register Now!

The Mountain and Plains Education and Research Center is pleased to announce CIH Online. CIH Online exam review and maintenance courses offer practicing industrial hygienists studying for the Certified Industrial Hygiene Exam and safety professionals seeking ABIH and/or BCSP credits an advantage by providing you 24/7 access, peer-to-peer networking, community discussion boards and instructor-led online review sessions. Course are eligible for IH contact hours, IH Ethics contact hours and COC (Continuance of Certification) points through the BCSP. Visit www.CIHonline.org for more information and to register today!

Nursing CNE Activities

The Southwest Center for Pediatric Environmental Health (SWCPEH) is one of 11 pediatric environmental health specialty units in the United States. SWCPEH is considered Region 6, serving Texas, Louisiana, Oklahoma, Arkansas, and New Mexico. SWCPEH is a FREE service offering consultations, education, referrals, and resources regarding pediatric environmental health issues to healthcare providers or community members. SWCPEH can provide services for any issue affecting pediatric health, from Asthma to Bed Bugs. You can contact SWCPEH at: 1-800-901-5665 or visit our website for more information at: www.swcpeh.org SWCPEH has recently developed four new Nursing CEU courses covering hot topics in environmental health including reproductive & developmental toxicology, hydrofracturing, the environmental effects on academic performance, and asthma triggers. Each course is eligible for 1 nursing continuing education contact hour. You can access these courses free of charge at: http://www.swcpeh.org/providers_ceupres.asp.

US-Mexico Border Health Training Opportunity

The South Texas Environmental Education and Research (STEER) Program of the University of Texas School of Medicine-San Antonio (UTSOMSA) provides in vivo training experiences at the US-Mexico Border for medical students, residents and other health professionals in an unique and informative setting. STEER engages nearly 100 instructors, most of them volunteers,

including health department leaders, community healthcare workers, and professors, to teach the dozens of half to full-day segments that make up the 4-week program.

STEER program is offered monthly if there are at least three qualified applicants. Limit of 10 students per rotation. See the website <http://steer.uthscsa.edu> for information and a downloadable application, or contact directly: steer@uthscsa.edu.
